Chapter Overview

Behind every constitution lies a moral vision – a set of values and ideals it seeks to achieve. Studying the Constituent Assembly debates and the Preamble helps us understand why the makers chose particular provisions and what kind of society they wanted.

The Indian Constitution combines liberal individual freedoms with social justice, protects diversity and minorities, adopts a distinctive form of secularism, grants universal adult franchise and creates an asymmetric federalism that respects regional identities within national unity. It has also been criticised as unwieldy, unrepresentative in its making and alien in parts.

Important Topics and Concepts

Meaning of the Philosophy of the Constitution

- Political philosophy refers to the moral content and ideals underlying a constitution.
- We study the conceptual structure of key terms – rights, citizenship, democracy – and the vision of a good society.
- Constituent Assembly debates help interpret the Constitution and its values.
- The Constitution is a means to limit power and promote social transformation.

Core Features: Freedom and Social Justice

- Individual freedom: freedoms of expression, life and liberty are central; no arbitrary arrest.
- Social justice: reservations for SCs, STs and backward classes; abolition of untouchability – liberalism linked with social justice.
- Respect for diversity and minority rights: communities recognised, cultural and educational rights for minorities.

Core Features: Secularism and Democracy

- Secularism: Indian secularism does not mean strict separation; the state keeps a principled distance from religion – it may intervene to promote equality (e.g. temple entry) and can support religious communities' institutions.
- Universal franchise: all adults got the vote from the start – a bold democratic choice.
- Federalism: asymmetric arrangements and special provisions for some regions.
- National identity: a common national identity alongside regional, linguistic and religious identities.

Procedural Achievements

- Faith in political deliberation – debates in the Constituent Assembly.
- Spirit of accommodation and compromise rather than majority imposition.
- Openness to learning from other constitutions while keeping Indian experience central.
- Consensus-building made the Constitution widely acceptable.

Criticisms and Limitations

- Criticised as unwieldy – too long and detailed.
- Said to be unrepresentative because the Assembly was not elected by universal franchise.
- Called alien – borrowed heavily from Western models.
- Limitations: centralised notion of national unity; gender justice issues in family matters; some social and economic rights placed in Directive Principles rather than Fundamental Rights.
- Despite criticisms, it has provided a stable framework for democracy.
